

Update : 15/09/2017

Micro-positioning space actuator

1 - Application

This actuator is adapted to application where micrometric displacement is required with a very high accuracy in harsh environment.

The markets targeted are aeronautics and space

2 - Description

- Stepper motor
- Anti rotation system of the rod
- Leading screw
- Planetary gearbox
- Protected with paint and coating for harsh environment
- Temperature range -60°C, +80°C

All our products can be customized to match your exact requirements
